

# Green your wardrobe!

An estimated  
**900 tonnes**  
of textiles go straight into  
our **rubbish bins** every year here in **B&NES**.

Not into the recycling system. Or to charity shops.  
Just **black bin sacks**.

It takes **10 x more energy** to make a tonne of  
**textiles** than to make a tonne of glass. What a waste!

*Turn over for ways you can make a difference*
